## **DETAILED ACTION**

1. Applicant's response to the Office action filed in October 7, 2002 is acknowledged. Claims 1-32 have been cancelled. Claims 33-49 have been added.

## **Election/Restriction**

- 2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - Group I Claims 33-39 are drawn to a nucleic acid fragment, vector and host cell classified in class 536, subclass 23.1. Further election of a single sequence is required.
  - Group II Claims 40-49 are drawn to a protein, classified in class 530, subclass 300. Further election of a single sequence is required.
- 3. Groups I and II are related as different products. Group I is drawn to a nucleic acid fragment, vector and host cell, which consists of nucleic acids. Group II is drawn to a protein, which consists of amino acids. Therefore, Groups I and II are distinct products, that differ structurally.

Art Unit: 1645

4. In the event applicant elects Group I, claims 33-39, applicant is required to elect

a single sequence corresponding to one of the species listed below: Claims 33-

39 recited distinct sequences based on structural differences.

Species A, SEQ ID NO:1

Species B, SEQ ID NO:3

Species C, SEQ ID NO:5

5. In the event applicant elects Group II, claims 40-49, applicant is required to elect

a single sequence corresponding to one of the species listed below: Claims 40-

49 recited distinct sequences based on structural differences.

Species A, SEQ ID NO:2

Species B, SEQ ID NO:4

Species C, SEQ ID NO:6

Applicant is advised that a reply to this requirement must include an identification

of the species that is elected consonant with this requirement, and a listing of all claims

readable thereon, including any claims subsequently added. An argument that a claim

is allowable or that all claims are generic is considered nonresponsive unless

accompanied by an election.

Should applicant traverse on the ground that the species are not patentably

distinct, applicant should submit evidence or identify such evidence now of record

showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

- 6. Because these inventions are distinct for the reasons given and have acquired a separate status in the art because of their recognized divergent subject matter as shown by their different classification, restriction for examination purposes as indicated is proper. Moreover, in the absence of restriction it would place an undue search and examination burden on the examiner.
- 7. Applicant is advised that the reply to this requirement to be complete must include an election of invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant is reminded that upon that upon cancellation of claims to a non-elected

invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if

one or more of the currently named inventors is no longer an inventor of at least one

claim remaining in the application. Any amendment of inventorship must be

accompanied by a diligently-filed petition under 37 C.F.R. 1.48(b) and by the fee

required under 37 C.F.R. 1.17(h).

9. Any inquiry of the general nature or relating to the status of this general application should be directed to the Group receptionist whose telephone number is

(703) 308-0196.

Papers relating to this application may be submitted to Technology Center 1600, Group 1640 by facsimile transmission. The faxing of such papers must conform with the notice published in the Office Gazette, 1096 OG 30 (November 15, 1989). Should applicant wish to FAX a response, the current FAX number for the Group 1600 is (703) 308-4242.

Any inquiry concerning this communication from the examiner should be directed to Vanessa L. Ford, whose telephone number is (703) 308-4735. The examiner can normally be reached on Monday – Friday from 7:30 AM to 4:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynette Smith, can be reached at (703) 308–3909.
